

BALLISTIC CRASH GATE

The Ballistic Crash Gate can be opened by a single operator. The gate includes a man door which is opened from the inside and has a ballistic window panel.

The Ballistic Crash Gate has been certified to stop a 10,000 pound vehicle traveling 20 mph. After the certification test, the Ballistic Crash Gate was found to be in operating condition with no apparent physical damage. The gate includes NIJ Level 3 steel covering the entire opening up to 8 ft. tall.
