

CENTURION CS GUARD TOWER

The Centurion CS Guard Tower is a mission configurable system that can be set in place and deployed in under 5 minutes. The Centurion’s ability to be rapidly deployed makes it ideal for Military Checkpoints, Dock Security, Border Patrol Operations, and many other mobile security needs.

The ballistic panels surrounding the Centurion Guard Tower are NIJ LVL 4 rated and provide 360° protection from 7.62mm and smaller ammunition. The Centurion is equipped with flip-out rain/shade visors and a folding weapon support shelves that can be tipped out to support a weapon or rotated inward to use as a shelf to store a radio or other items.

The floor and roof are made with 3/16” thick ballistic steel to provide shrapnel protection. The floor is vinyl coated to improve traction and wear.

- **Fast and Simple Setup**
- **Facilitates Rapid Repositioning of Assets**
- **360° Ballistic Protection (NIJ LVL 4 Ballistic Panels)**
- **Easily Transportable**
- **24 Volt DC Battery Operated Hydraulic Lift System**

Centurion CS shown being transported with optional PPC-95LHT tow unit.

Part No.	Description:	Color:	Dimensions:	Approx. Weight:
9672CS	Centurion CS Guard Tower	OD or DT	8’ H x 6.5’ W x 8’ L	8,500 lbs.
9672CT	Centurion Trailer	OD or DT	4’ H x 7.5’ W x 18’ L	3,000 lbs.
PPC-95LHT	Pro Pallet Carrier 9,500 lbs.	OD or DT	7’ H x 8.5’ W x 16’ L	5,000 lbs.
WMK1	Weapons Mount Kit - 240	OD or DT	16” H x 20” W x 36” L	60 lbs.
9672RDCR	Wind/Rain/Visibility Shield	OD or DT	36” H x 10” W x 10” L	30 lbs.

CENTURION CS GUARD TOWER

With a simple press of a button, the Centurion CS Guard Tower raises into a deployed position.

The Centurion CS has a battery operated hydraulic system for raising and lowering the tower. The 24 Volt battery operated hydraulic pump make setup as easy as pressing a button. The system is kept charged by a solar panel.

The Centurion CS is accessed by climbing up the steel ladder and entering through the door opening. When the unit is in the up position, the door is closed to provide 360° ballistic protection.

The Centurion CS base conforms to standard shipping container specifications. It can be transported overseas via ship as a standard Conex box, shipped inside a 40' high cube shipping container or via air on a standard 463L pallet.

The Centurion CS guard tower can be easily towed by a pickup, most military vehicles or slung under a helicopter. The optional PPC-95LHT or Centurion Trailer makes it possible to position, tow or recover the guard tower without the use of any heavy equipment.

The Centurion CS shown deployed.

The Centurion CS can be transported with a PPC-95LHT tow unit or the Centurion Trailer (shown above).
