

PORTABLE BALLISTIC PANEL

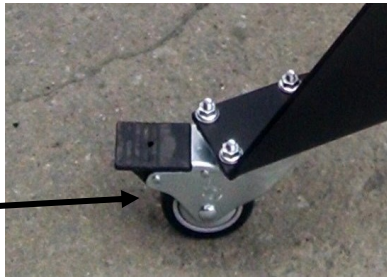

The Portable Ballistic Panel will provide protection from handguns and most rifle rounds. It will also provide blast shrapnel protection.

They can be easily moved by one person to any location you require protection. Once you have them in the desired location, all 4 wheels can be locked against rolling and rotation.

The Panels are available in solid configurations, with or without fabric covered acoustic panels that allows the use of pins or tacks, partial solid / partial glass configurations and all glass configurations.

The Panels are shipped fully assembled.

UL Level 7 Ballistic Panels are certified to provide protection against the following rounds:

- 5.56 mm (.223 Caliber) rounds

UL Level 8 (NIJ-3) Ballistic Panels are certified to provide protection against the following rounds:

- All weapons in UL Level 7
- 7.62 mm (.308 Winchester) full metal jacket
- 45 Cal Handgun

UL Level 9 (NIJ-4) Ballistic Panels are certified to provide protection against the following rounds:

- All weapons in UL Level 7&8
- .30-06 AP (Armor piercing)
