

VEHICLE INSPECTION PLATFORM (VIP)

Perimeter Security Products is constantly striving to design products that will make the work environment a safer and efficient place. We recognized the need to streamline and improve vehicle inspections and as a result we have designed the Vehicle Inspection Platform (VIP). Currently at most gate entrance; guards are required to visually inspect truck beds and trailers before allowing entry. The VIP can be used at border crossings or for rail car inspections.

The simple solution is to place the VIP at all gate entrances and containment areas. The problems mentioned above will be eliminated and you will have a safe , efficient and more logical way to inspect incoming vehicles.

- Observation platform with eyes at 11 ft.
- Customizable for specific Length, Width, Roof, etc.
- No tools necessary for assembly or disassembly
- Easy leveling with use of included screw jacks
- Is palletized for shipping and can be deployed on 463L pallet
- Stable platform and work surface
- Can be easily moved or redeployed
- Simple assembly with only one or two personnel - no engineering support required
- Can have lights or signs attached
- Modular for any length requirement
- Can be extended if requirements change
- Made in the USA

Part No.	Description	Size:	Weight:
51503SK	Vehicle Inspection Station (Starter Kit)	96" H x 48" W x 90" L	600 lbs.
51803EK	Vehicle Inspection Station (Extension Kit)	96" H x 48" W x 90" L	500 lbs.
51303S	Vehicle Inspection Station (Stair Kit)	96" H x 48" W x 60" L	175 lbs.
