

# MCCS

## Mission Configurable Container System

The MCCS is a mission configurable system that can be set in place and deployed rapidly. The platform is designed to mount variety of different systems from Mini Guns to 30mm systems. When not in use the platform lowers into the container for protection.

### System Specifications :

- Container Size: 10'5" x 6'5" x 8'
- Motorized Retractable Roof
- Manual or Auto Operation ( in auto can be operated remotely)
- Platform Accommodates 5,000 lbs. of Payload
- Internal 24 VDC Hydraulic System
- Customizable Accessory Mount
- Facilitates Rapid Repositioning of Assets
- Compatible with mutable systems

MCCS shown deployed with optional 10572CT MCCS Trailer

The optional trailer adds additional height. The outriggers provide superior stability to the container making it the ideal platform when deployed. The container can be easily remove from the trail when needed by unlocking the twist locks that secure the container to the trailer.

Part Number	Description	Color	Dimensions	Approx. Wt.
10572CS	MCCS	OD or DT	10.5' x 6.5' x 8'	8,500 lbs.
10572CT	MCCS Trailer	OD or DT	18' x 7.5' x 4'	3,000 lbs.
